NAZNEEN FATIMA

DATA SCIENTIST

Phone: +91 9010467476 — Hyderabad, Telangana
Email: nazneenfathima056@gmail.com —
linkedin.com/in/nazneen-fatima-a6748a376 — github.com/nazneen-fatima

PROFILE

B.Tech Data Science graduate with hands-on experience in **Python, SQL, data analysis, data preprocessing, exploratory data analysis, machine learning, and Generative AI**. Skilled in developing **RAG applications** and AI-powered solutions using FastAPI, Streamlit, LangChain, vector databases, and LLMs. Experienced in developing machine learning models, working with structured data and databases, and deploying applications using Docker and Microsoft Azure. Strong analytical, problem-solving, communication, and teamwork skills, seeking an entry-level **Data Scientist** position.

EDUCATION

Aurora's Technological and Research Institute, Hyderabad — JNTUH
B.Tech – Data Science 2022–2026
CGPA: 7.6/10

TECHNICAL SKILLS

Programming: Python, SQL
Data Analysis: Pandas, NumPy, Excel, Power BI, Matplotlib, EDA
Machine Learning: Scikit-learn, Data Preprocessing, Model Evaluation
AI: Generative AI, RAG, LLMs, Prompt Engineering, LangChain
Development: Streamlit, FastAPI
Databases: MySQL, Pinecone, Vector Databases
Deployment Tools: Docker, Microsoft Azure, Git, GitHub, Postman
Computer Vision: YOLO, OpenCV, Groq Vision

CORE SKILLS

- Communication Skills
- Problem Solving
- Teamwork Collaboration
- Adaptability
- Time Management
- Organizational Skills

PROJECTS

RAG Docker FastAPI Deployed Using Azure

- Developed a document-based Retrieval-Augmented Generation (RAG) application for intelligent question answering using embeddings, vector search, and LLMs.
- Containerized and deployed the application on Microsoft Azure using Docker and Azure Container Registry.
- **Technologies:** Python, FastAPI, LangChain, RAG, Pinecone, Docker, Azure

Traffic Challan Automation System

- Developed an AI-based system for traffic violation detection, number plate recognition, and digital challan generation.
- Integrated YOLO, Groq Vision, MySQL, and Streamlit for automated detection, database operations, and challan management.
- **Technologies:** Python, YOLO, OpenCV, Groq Vision, MySQL, Streamlit, Git, GitHub

AI-Powered Investment Allocation ETF Recommendation Agent

- Developed an AI-powered application for personalized asset allocation and ETF recommendations using LLMs.
- Built the workflow using LangGraph and Groq LLM with FastAPI and Streamlit.
- **Technologies:** Python, LangGraph, Groq LLM, FastAPI, Streamlit

ACHIEVEMENTS

- Completed Full Stack Python from Naresh IT
- Completed Business Communications course from HP LIFE
- Completed AI Fundamentals and received a badge from IBM SkillsBuild
- Participated in Hyderabad Youth Assembly as a Member

LANGUAGES

English — Hindi — Urdu — Telugu
